SOURCING QUALITY, DELIVERING TRUST

PAINT **COATING**

**TRANSFORM YOUR FORMULATION
WITH HIGH- QUALITY CHEMICALS**

Products Name	Trade/INCI Name	Chemistry	CAS#	Application	HS Code
EO/ PO BLOCK COPOLYMER SERIES					
UNITOP-PF-10/40	Block copolymer of EO/PO	Polyethylene Polypropylene Block Co Polymer	9003-11-6	Acts as a low-foaming surfactant and defoamer in detergents, emulsifier in emulsion polymerization, and dispersing agent for pigment pastes and preparations	34024200
UNITOP F-68(P)	Block copolymer of EO/PO	Polyethylene Polypropylene Block Co Polymer	9003-11-6	Versatile agent used as an emulsifier, antifoaming agent, additive, lubricant, solubilizer, antistatic agent, washing agent, dispersing agent and plasticizer	34024200
UNITOP L-61/L62/L64	Block copolymer of EO/PO	Polyethylene Polypropylene Block Co Polymer	9003-11-6	Used in paints, coating & emulsion polymerization. Also used in adhesive, pulp & paper, textile production, Agriculture formulations & hard surface cleaning	34024200
SURFACTANTS					
UNITOP-X-100	Octylphenol Ethoxylate 10 EO	Alkyl Aryl Polyether	9002-93-1	For emulsion polymerization of Acrylic Vinyl Butadiene Styrene etc	34024200
UNITOP-X-250	Octylphenol Ethoxylate 25 EO	Alkyl Aryl Polyether	9002-93-1		34024200
UNITOP-X-300	Octylphenol Ethoxylate 30 EO	Alkyl Aryl Polyether	9002-93-1		34024200
UNITOP-X-400	Octylphenol Ethoxylate 40 EO	Alkyl Aryl Polyether	9002-93-1		34024200
UNITOP-60	NP 6	Alkyl Aryl Polyether	9016-45-9	For emulsion polymerization of Acrylic Vinyl Butadiene Styrene etc	34024200
UNITOP-90	NP 9	Alkyl Aryl Polyether	9016-45-9		34024200
UNITOP-100	NP 10	Alkyl Aryl Polyether	9016-45-9		34024200
UNITOP-300(F)	NP 30	Alkyl Aryl Polyether	9016-45-9		34024200
UNITOP EPA-073	Sodium Laureth Sulfate	Sodium salt of fatty alcohol poly-ethoxy sulphate	219756-63-5	Emulsifier for emulsion polymerization of monomers like styrene, acrylic acid esters, methacrylic acid esters and vinyl acetate. Wetting agent for inorganic and organic pigments	34023900
UNITOP OPS-25	Sodium Octylphenol Ethoxylate Sulfate	Sodium Alkyl Phenol Polyglycol Ether Sulphate	55348-40-8	For emulsion polymerization of monomers like styrene, acrylic acid esters, methacrylic acid esters	34024200
UNITOP-UND-3070	Undeceth-30 mole 70%	Fatty Alcohol Ethoxylate	34398-01-1	Suited for textile scouring and dyeing, industrial and institutional and specialties	34024200
UNITOP-UND-080	Undeceth-8	Fatty Alcohol Ethoxylate	34398-01-1		34024200
UNITOP-UND-217	Undeceth	Fatty Alcohol Ethoxylate	34398-01-1		34024200
PHENOXYPROPANOL	Phenoxypropanol	Phenoxypropanol	1335-12-2/ 122-97-4	Phenoxypropanol stands out among coalescing agents due to its superior coalescing efficiency, slow evaporation rate, hydrophobic properties, low VOC contribution and compatibility with diverse formulations	29071990
UNITOP-OL-050	Oleyl Alcohol Ethoxylate	Oleth-5	9004-98-2		34024200
UNITOP-OL-070	Oleyl Alcohol Ethoxylate	Oleth-7	9004-98-2	Emulsifier of mineral oils in plant protection agents and processing fluids	34024200
UNITOP-OL-090	Oleyl Alcohol Ethoxylate	Oleth-9	9004-98-2	A component of emulsifying compositions in machining liquids (metal processing)	34024200
UNITOP-OL-100	Oleyl Alcohol Ethoxylate	Oleth-10	9004-98-2	Cleaning metal surfaces	34024200
UNITOP-OL-150	Oleyl Alcohol Ethoxylate	Oleth-15	9004-98-2	Industrial and institutional cleaning	34024200
UNITOP RE-610	Alkyl Phenol Ether Phosphate	Alkyl Phenol Ether Phosphate	68412-53-3	Emulsifier for Pressure Sensitive Materials	34023900
UNITOP W 20	Styrenated Phenol Ethoxylate	Styrenated Phenol Ethoxylate	99734-09-5	For Emulsion Polymerization of Pigment Emulsion	34024200
UNITOP 5X/7X	Diethyl Hexyl Sodium Sulfosuccinate	Alkyl Sulfosuccinate	577-11-7	For Emulsion Polymerization of Polymers	34024200
UNITOP FFT 40	PEG 40 Castor Oil	Castor Oil Ethoxylate	61791-12-6	For Emulsion Polymerization of Pigment Emulsion	34024200
UNITOP HC-200	Cetareth 20	Alkyl Phenol Polyether	68920-66-1	For Emulsion Polymerization of Pigment Emulsion	34024200
UNITOP-NABS-50	Sodium Dodecylbenzenesulfonate	Sodium Salt of Alkyl Benzene Sulfonate	25155-30-0	Powerful wetting, detergent, emulsifying and dispersing properties combined with stability to acids	34023100

Base	Products Name	Chemistry	Application	HS Code
Non-Silicone Defoamer	TRIOBAN PC NDW	Blend of Mineral Oil with fatty acid esters	Paper, Paints, Latex based coatings such as Acrylic, Butadiene, Styrene and PVA emulsions	27101990
	TRIOBAN PC 7011	Dispersion of Wax in Mineral Oil with next generation emulsifiers	Water-based paint, Architectural paints, Emulsions, plasters, Pigment/filler slurries, Industrial wood coatings	27101990
	TRIOBAN PC NXZ	A blend of Mineral Oil with fatty acid esters	For emulsion paints & adhesives system	27101990
	TRIOBAN ADCO 55	A blend of mineral oil with performance based additives & surfactants	Multi purpose application in Paint & Coatings	39072990
	ROSSBAN DEF NS 100	A combination of fatty alcohols and esters	Especially formulated to control the foam in PCE types super plasticizers	34024900
	TRIOBAN CN 1048	Combination of fatty alcohols and esters	Cement/Asbestos Roofing Sheets.	34024900
	TRIOBAN PC 3191	Blend of mineral oil, polyether and hydrophobic silica	Water-based emulsion paints, Flat paints, semigloss paints & Water-based exterior paints	38249999
	TRIOBAN 5090	Blend of Mineral Oil with fatty acid esters	Paper, Paints, Latex based coatings such as Acrylic, Butadiene, Styrene and PVA emulsions	38099190
	TRIOBAN PC 6090	A blend of Mineral Oil with fatty acid esters	For emulsion paints & adhesives system	38099190
Silicone Defoamer	TRIOBAN PC 722	An organo modified siloxane, hydrophobe, polyether silicone surfactant	Various applications in the paint, ink, and coatings industries	39100090
	TRIOBAN SD 100	A Proprietary blend of Polydimethyl Siloxane compound	In chemical manufacturing such as Paints/inks/coatings	39100090
	TRIOBAN DF 21	A Proprietary blend of Polydimethyl Siloxane & Silica & Non-Ionic Surfactants	Versatile in Water Base Paint Industries	39100090
	TRIOBAN SD 10	It is Combination of polydimethyl siloxane with surfactants	Multi purpose application in Paint & Coatings	39100090
Powder Base-Silicone Defoamer	TRIOBAN PWD SD 15	Novel PDMS based defoamer with inert base and surfactant	Used in construction, oil and gas exploration, agrochemical powders, cement paints, powder coatings, mortars, adhesives, gypsum and more	39100090
	TRIOBAN PWD ST	Novel PDMS based defoamer with inert base and surfactant	Widely utilized in construction, oil and gas exploration, agrochemicals, cement paints, powder coatings, mortars, adhesives, and gypsum applications	39100090
Powder Base Non-Silicone Defoamer	TRIOBAN PWD 26	Non silicone based proprietary powdered defoamer	Utilized in construction, oil and gas exploration, agrochemicals, cement paints, powder coatings, mortars, adhesives, gypsum and similar applications	27101990
Thickener	SENSOCRYL AS 60	Styrene acrylic copolymer	For thickening water based paints and coatings	38099190
	SENSOCRYL AS 20 HP	Premium styrene-acrylic copolymer	Designed to enhance the viscosity of water-based paints and coatings	13023900
	SENSOCRYL HT 30	Anionic Acrylic copolymer	For thickening Emulsion Paints	13023900
	SENSOCRYL HT 30 HP	Anionic Acrylic copolymer	For thickening Emulsion Paints	13023900
Dispersing Agent	DISPA 8500 GM LIQUID	Proprietary blend of chemicals	For water based Paints	38099190
	DISPA 7030 AM LIQUID	Proprietary blend of chemicals	For water based Paints	38099190
	DISPA 4545	Sodium Salt of polyacrylate dispersion	Ideal for dispersing a variety of inorganic solids and reactive pigments in waterborne systems	38099190
	TRIODISP PWD 9500	Anionic surfactant are a series of sodium salts of alkyl naphthalene sulfonic acid formaldehyde condensate	Dyes and Pigments	29041030
	TRIODISP 315P	A mixture of a copolymer with pigment-affinic groups	Especially for printing inks	29420090
Coalescing agent	TRIOCHEM XLA NF	Ester Alcohol	For latex paints	34021900
